Offer & Request

ENTERPRISE EUROPE NETWORK IN THE NETHERLANDS

I'm a member of the Healthcare sector group of the Enterprise Europe Network. I'm in contact with companies in the Dutch Life Sciences and Health sector and with clusters dedicated to these fields.

Branche organisations I work with include:

Lifescience cluster in the South of The Netherlands: LifeTecZone: www.lifeteczone.nl

A general overview of LSH in the Netherlands can be found here: <http://www.health-holland.com/international-visitors>

Offer

Volume manufacturing of microfluidic devices

The company designs and develops microfluidic products for the life sciences, chemistry, medical and industrial sectors. The technology allows process intensification, significantly improving the sustainability of some production processes. The company is looking for distributors or agents for commercial agreements.

Keywords: lab on chip process intensification

Cooperation Offered

1. Distribution

Offer

Cloud based medical image and report exchange platform

A Dutch company is offering a cloud based medical exchange platform or online Picture Archiving & Communication System (online PACS) for exchanging medical images and reports.

This service allows hospitals to share Digital Imaging and Communications in Medicine (DICOM) images, Magnetic Resonance Imaging (MRI), Computer Tomography (CT), Dual Energy X-ray Absorptiometry (DEXA), X-Ray, Angiogram, Ultrasound, Electro Cardiogram (ECG)) and reports in a simple workflow-driven manner.

Keywords: picture archiving PACS medical images

Cooperation Offered

1. License agreement
2. Distribution

Request

Healthcare products in the areas of wound care, hygiene & disinfection and orthopaedics

Dutch company with extensive knowledge and a broad international network in the areas of wound care, hygiene & disinfection as well as orthopaedics is seeking suppliers of healthcare products for sales and distribution services in Europe.

Keywords: wound care disinfection orthopaedics

Cooperation Offered

1. Distribution
