- Wednesday 14:00 h - 18:00 h

Description

In addition to being **quoted on the Euronext Lisbon Stock Exchange**, Compta has a **privileged position in the IT market**, constantly investing in its certification and in its employees, accumulating more than **400 individual certifications** and having the **highest level of certification in its Strategic partners**.

Being one of the oldest **National Technology Groups**, **COMPTA** has developed its activity based on constant pursuit of technological innovation, with the mission of selecting the best technologies in the world and adapting them to the markets where it operates. It presents a complete and coherent range of products, solutions and services, helping companies **enhance their performance** by adding **value to their business**.

COMPTA was the **first Portuguese company** to obtain certification in **Information Technology Service Management Systems (ITSMS)** in accordance with **ISO / IEC 20000-1: 2011** for the scope of “Provision of services In the Portuguese market, in the field of application parameterization and platform support for Process Management solutions from Portugal”

It is also a company certified according to the standards - **NP 4457** - Management System for Research, Development and Innovation and **ISO / IEC 27001: 2013** (Information Security Management System) in addition to **NP EN ISO 14000** Environmental Certification and **NP EN ISO 9001**, quality assurance model in the design / development, production, installation and after-sales service, in the scope of supply of integrated products and solutions of Telecommunications and Information Technologies.

This external recognition by the official certification entities guarantees our customers a consistent quality and continuous control in all the activities developed in our processes, in order to satisfy their needs and expectations. **COMPTA** offers its customers in terms of service capacity a comprehensive coverage of the national territory providing a wide range of services, specially tailored to ensure the uptime of applications and technological infrastructures.

Focusing on technological development and the best performance of companies, Compta has 4 Innovation & Development Centers. To highlight its innovative spirit, it created the Lusideias project, a national platform of innovation and crowdsourcing that aims to transform disruptive ideas with technological potential in successful businesses
